

Liberty Health Advantage (HMO)

MEDIATION THERAPY MANAGEMENT PROGRAM (MTMP)

Liberty Health Advantage offers a medication therapy management program, or MTMP, through our pharmacy benefit manager National Pharmaceutical Services (NPS).

This program is offered at no additional cost for members who have multiple medical conditions, who are taking multiple “Part D” prescription drugs, and who have high drug costs. The Medication Therapy Management Program was developed by a team of pharmacists and doctors. MTMP is used to help us provide better coverage for our members. For example, this program helps us make sure that our members are using appropriate drugs to treat their medical conditions and help us identify possible medication errors.

We offer this medication therapy management program for members that meet specific criteria. We may contact members who qualify for these programs. If we contact you, we hope you will join so that we can help you manage your medications. Remember, you do not need to pay anything extra to participate. These programs may have limited eligibility criteria, and are not considered a benefit. If you would like more information, please contact our Member Services Department at 1.866.542.4269 (TTY: 1.800.662.1220) Monday through Friday 8:00 am until 8:00 pm EST.

If you are selected to join the medication therapy management program, we will send you information about the specific program, including information about how to access the program.

Although the MTMP program is a special offering provided to Medicare members, it is not considered a benefit.

Liberty Health Advantage, Inc. is a health maintenance organization (HMO) that has a Medicare Advantage contract with the Federal Government
